

SolarInvert Energy Solutions

Senegal Telecom PV Site

Overview

How can a photovoltaic system benefit Senegal?

An array of 92,000 photovoltaic panels has been installed and around 30MWp of renewable energy can now be utilised – securing a valuable and sustainable supply of low-cost electricity for Senegal, while providing an uplift to the local economy.

Where is Senelec power project located?

The project is located near Mbouky, approximately 145 km from Dakar. Tnergie, the initial developer of the project, signed a 25-year Power Purchase Agreement with Senelec at the end of December 2013.

Who owns Senelec power?

Tnergie, the initial developer of the project, signed a 25-year Power Purchase Agreement with Senelec at the end of December 2013. Meridiam partnered with Eiffage and joined the project as majority shareholder to finalize the development phase and raise the financing required for financial close.
