

SolarInvert Energy Solutions

ASEAN Mobile Energy Storage Solutions

Overview

Does ASEAN need enabling policies for energy storage?

However, ASEAN has many untapped markets for energy storage applications. Hence, to maximise the market potential and accelerate the low carbon transition in ASEAN, this policy brief recommends several enabling policies for energy storage. [/vc_column_text] [vc_column_text el_class="iframe-pub"] [/vc_column_text] [/vc_column] [/vc_row].

How can ASEAN achieve a renewables-based transformation?

The renewables-based transformation would need a massive investment in electricity infrastructure to maintain the balance of supply and demand. ASEAN has adequate policies to positively influence the attractiveness of energy storage through renewable energy investment, both on-grid and off-grid.

Is ASEAN a good place to invest in energy storage?

ASEAN has adequate policies to positively influence the attractiveness of energy storage through renewable energy investment, both on-grid and off-grid. However, ASEAN has many untapped markets for energy storage applications.

Are battery energy storage systems revolutionizing energy solutions?

In an article featured on The Business Times, Rodrigo Hernandezvara, Head of Solar C&I at ENGIE highlights how Battery Energy Storage Systems (BESS), combined with renewable energy sources like solar power, are revolutionizing energy solutions for the region.
