Base station anti-misdistribution box

Overview

What is a site-in-a-multisector base station?

This site-in-a- MultiSector is a self-contained base station, saving upon PoEs, ethernet cables, GPS & site Switch as well as installation labor costs. Offering seamless coverage expansion options from 90˚ to 360°, the MultiSector series allows for antenna selection flexibility according to deployment requirements.

How do antistatic boxes protect electronic components from electrostatic discharge?

Antistatic boxes protect electronic components from electrostatic discharge during storage and handling in controlled environments. These boxes use conductive corrugated fiberboard to safely dissipate static charges and help prevent damage. The conductive coating creates a Faraday Cage effect, shielding contents from electrostatic build-up.

What is a self-contained base station?

A self-contained base station site in-a-box that delivers 1.5Gbps and can connect to 4 external MIMO antennas. This base station is Ideal for long-range rural connectivity. A self-contained base station site in-a-box that delivers 1.5GHz and features two integrated 90˚ sector antennas.

What is a Multitech outdoor base station bs422?

MultiTech Outdoor Base Station BS422 Designed with flexibility, fast deployment and operational simplicity in mind, just power on our multi technology infrastructure to start delivering reliable and secure communications. Get support The DAMM MultiTech Outdoor Base Station BS422 delivers maximum uptime for any radio network.

What is a Damm Multitech outdoor base station bs422?

Get support The DAMM MultiTech Outdoor Base Station BS422 delivers maximum uptime for any radio network. It combines all the power and

functionality you would expect from a state-of-the-art base station, in a small, compact box that is quick and easy to install, maintain and expand - even in the harshest of environments!.

What is a bs422 base station?

The BS422 is your base station of choice if the ability to reach an end user is critical to your business and any disruption to your operation causes significant financial loss or the potential of serious injury or loss of life. Requires administration of multiple technologies (TETRA, DMR, Analogue)
