

SolarInvert Energy Solutions

China-Africa Lithium Energy Storage Project

 Extreme Light Weight

 X3 Extended Cycle life

 Low Self Discharge

 Superior Cranking Power

 Completely Sealed

 Environmental

Overview

Known as “white gold”, lithium is the lightest solid element in the periodic table. Its high electrochemical potential makes it critical to electric vehicle batteries. It is produced from the brines of Latin America or har.

China-Africa Lithium Energy Storage Project

China to produce 506,000 tons of EV power from Mali's lithium mine

China's top lithium production firm launched the first phase of a lithium mining project in Mali. Ganfeng Lithium announced the launch of the first phase of its Goulamina ...
