

## SolarInvert Energy Solutions

# Closed solar cycle system

**3.2v 280ah**

## Overview

---

The opportunity of producing power in space seems to be attractive considering the exponential growth of the human population and the renewed interest in space missions. Space Solar Dynamic Systems.

## Closed solar cycle system

---

### OTEC Power Plant

The closed-cycle system uses a working fluid, like ammonia, pumped around a closed loop, which has three components: a pump, turbine and heat exchangers (evaporator and condenser).
