

## SolarInvert Energy Solutions

# Croatia large-capacity energy storage battery

Warranty  
**10 years**

LiFePO<sub>4</sub>

Intelligent BMS

Wide Temp:  
-20°C to 55°C

## Overview

---

Can Croatia become a regional leader in battery energy storage?

The participants agreed that Croatia has the potential to become a regional leader in the integration of renewable sources and battery energy storage, but this requires a rapid modernization of the transmission and distribution network, as well as legislative adjustments.

Will increasing battery storage capacity reduce electricity prices?

Maja Pokrovac, director of RES Croatia, highlighted that increasing battery storage capacity could reduce electricity prices by 25% by 2030, stressing the urgent need to accelerate the adoption of a regulatory framework that would enable faster development and deployment of new capacities.

How does a lack of energy storage capacity affect energy consumption?

The lack of energy storage capacity further increases dependence on electricity imports, which accounted for as much as a quarter of domestic consumption last summer.
