Energy storage prices in Ukraine

Overview

How important are energy storage systems in Ukraine?

"In the context of large-scale attacks on Ukraine's energy system, the role of energy storage systems has become just as fundamental as energy generation itself," said energy minister Svitlana Grinchuk. (\$1 = 0.8554 euros).

Why is DTEK launching a battery storage facility in Ukraine?

REUTERS/Valentyn Ogirenko/File photo Purchase Licensing Rights KYIV, Sept 11 (Reuters) - Ukrainian private energy firm DTEK has launched the country's largest battery storage facility to ensure stable power supplies in the face of Russian attacks on Ukraine's energy sector, the company said on Thursday.

How big is Ukraine's gas storage?

The highest level of gas stock and its third part is done by non-resident customers Ukraine's vast storage facilities are not just an asset for the country itself, but rather for the entire continent. The storage system is the world's third biggest by capacity – behind only the United States and Russia – can store over 30 bcm.

Are Ukraine's energy reserves still untapped?

Yet, these enormous reserves of energy remain largely untapped. Today, Ukraine has a low annual reserve usage rate of about 2 percent. Moreover, more active exploration may yield previously undiscovered gas fields, which would further increase the overall volume of Ukraine's deposits.

How much did DTEK invest in a battery storage system?

DTEK said its total investment in the project amounted to 125 million euros (\$146.13 million). Six battery storage systems have been connected to the power grid in the capital Kyiv and Dnipropetrovsk regions in eastern Ukraine, it said.
