Overview

The pricing of solar PV inverters has shown a downward trajectory over the past decade due to advancements in manufacturing, economies of scale, and increased competition. As of 2025, the average price per watt for inverters ranges between \$0.05 and \$0.20, depending on the type and capacity. What are the trends in the PV inverter market?

PV Inverter Market Trends Rising demand for storage along with PV systems: The growing demand for battery storage solutions in conjunction with photovoltaic or solar systems is having a substantive impact on the PV Inverter Market.

How big is the PV inverter market?

The PV inverter market size is valued at US\$ 15.33 billion by 2025, from US\$ 42.54 billion in 2032, at a CAGR of 15.7% during the forecast period.

How much is the PV inverter generators industry worth in 2025?

The PV inverter generators industry is valued at USD 1.7 billion in 2025. As per FMI's analysis, the PV inverter will grow at a CAGR of 6.4% and reach USD 3.2 billion by 2035.

How will the PV inverter market grow in 2035?

As per FMI's analysis, the PV inverter will grow at a CAGR of 6.4% and reach USD 3.2 billion by 2035. In 2024, the PV inverter market experienced consistent growth as a result of increasing solar installations in Asia-Pacific (particularly China and India) with government incentives and declining solar panel prices.

What drives the PV inverter market?

The PV inverter market is poised to grow significantly over the next five years, driven by declining prices of solar panels and supportive government policies and regulations around the world. Major drivers for the market include

countries mandating renewable energy generation targets and incentives for rooftop solar installations.

Will solar inverter prices fluctuate in 2025?

With increasing production, the global solar inverter prices are expected to be more competitive. However, supply chain disruptions and material costs may impact affordability. Factors like silicon shortages, shipping delays, and tariffs on electronic components could lead to fluctuating prices throughout 2025. 3. Type of Inverter
