

SolarInvert Energy Solutions

Georgia 10kw energy storage

Overview

When will Georgia's battery storage system come online?

The battery system is expected to come online as early as 2026 and is subject to regulatory approvals. “As we continue to build Georgia’s clean energy future, battery storage systems play a vital role in how we will continue to serve our customers with clean, reliable energy for decades to come.

Why do Georgians need battery storage systems?

Battery storage systems part of plan to add renewable energy and help ensure reliability for Georgians.

How many MW of new battery energy storage will be available?

An additional 1,000 MW of new battery energy storage is expected to be procured in the coming years through competitive bidding processes and a 13 MW demonstration project is in development at Fort Stewart Army Installation near Savannah, Georgia.

Does Georgia Power support Customer-Sited solar?

Georgia Power is also committed to supporting customer-sited generation resources to meet the state's growing energy needs. The 2025 IRP includes two customer expansions of BESS programs including enhancements to the Customer Connected Solar Program and launching a new Customer-Sited Solar Plus Storage Pilot.
