

SolarInvert Energy Solutions

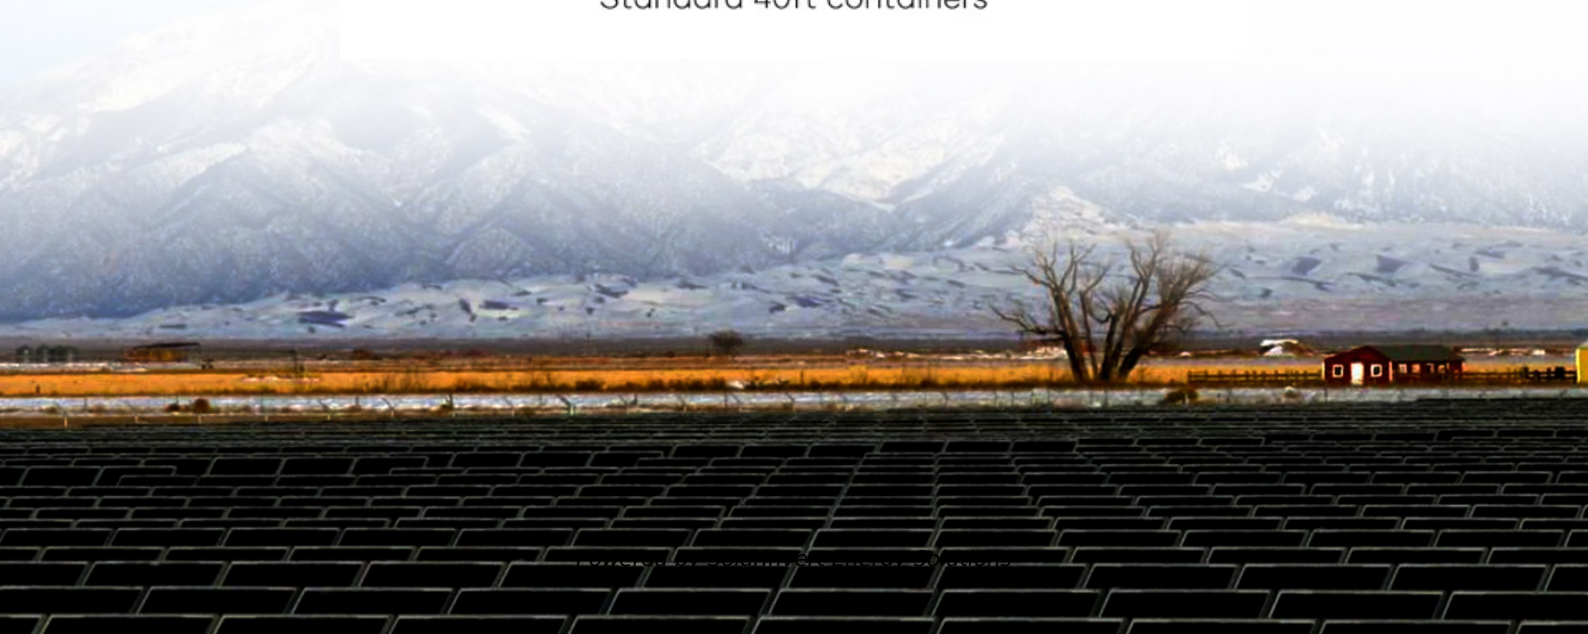

German outdoor solar all-in-one machine

Standard 20ft containers

Standard 40ft containers

Overview

Who are German solar pioneers?

As German solar pioneers, we are absolute experts in the construction of rooftop modules. But we thought ahead early on and started to take the possibilities of our technology to new levels. Today you will find modules for the classic rooftop system, as well as solar roof tiles and unusual products for solar construction.

What is German Offgrid power?

GOP German Offgrid Power offers efficient solutions wherever the connection to a power grid is associated with high costs and expenses or diesel power generators are expensive transitional solutions. With German Offgrid Power, you benefit from the solar power plant regardless of infrastructural restrictions.

What are our solar modules made of?

Our solar modules are made of highly efficient monocrystalline photovoltaic cells. In selecting our cells, we rely on the best cell technology, which is reflected in particularly long product life and industry-leading performance in our modules. These are the components of pioneering solar modules of the highest quality.

Are DIY solar panels UL certified?

Connect some batteries and solar panels, change the settings, and you are done. The DIY battery community has used these units 24/7 for years! They are extremely dependable. As of 2021, they are now UL certified! This means that the components inside the units are high quality.
