

## SolarInvert Energy Solutions

# How big is the outdoor solar charger

## Overview

---

Strike the perfect balance with 28 watts of solar power in a compact 680g build. Thanks to reinforced grommets and carabiners, this portable charger easily clips to your gear or hangs from a branch—harvesting sunlight without disrupting your pace. How much does a BigBlue solar charger weigh?

Ultra-Portable Emergency Solar Charger: Engineered for outdoor camping and emergency power supply, BigBlue USB solar charger folds to just 11x6x1.4 inches and weighs only 1.5 lbs—compact enough for tight backpack. Unfold, Plug, Power, easy to setup, it is critical for hurricane preparedness kits.

How many solar chargers are there?

We tested 34 solar chargers to power our adventures, including brands like Jackery, GoalZero, Renogy, and more. A good solar charger lets you power your essential communication and outdoor electronics, no matter how far off the grid you go. Over the last decade, we have tested almost 100 different solar panels of varying sizes.

What wattage should a solar charger be?

20 watts to 30 watts: Many of the portable solar chargers we tested here fall into this wattage range. 20 to 30-watt chargers are great for faster charge speeds while still being relatively portable. 30 watts to 50 watts: You'll see even faster charging speeds in this range.

What is the best portable solar charger?

" The BigBlue 28W USB Solar Charger produces the most power of any portable solar charger we've tested, and it has unique features that make it more versatile and durable, including three output ports (versus two on most other chargers), and an expansive but lightweight array of panels to catch every last ray of sunlight.

Which solar charger is best for camping?

The FlexSolar 40W's six panels are quite easy to fold up. The Allpowers SP012 100W is the most portable 100-watt solar charger for camping we've found. This model folds up like a blanket to a size small enough to fit in a backpack. You can fit this solar charger into your trunk, with plenty of room to spare for all your gear.

What is a solar power charger?

There's a lot to understand about solar power chargers, but at their heart, a small solar panel consists of several photovoltaic cells grouped together to absorb some of the sun's energy and convert it into an electric charge that you can use to charge electronics.
