How to connect to an outdoor base station

Overview

How do I set up a Wyze base station?

In the Wyze app, tap on your Wyze Base Station. Tap on the Settings gear on the top right. Tap Device Info > Wi-Fi Network. Follow the on-screen steps to finish the setup. Now that your Wyze Base Station is all set up, it's time to add your Wyze Cam Outdoor. Move on to the next article, Wyze Cam Outdoor Setup Guide.

How many outdoor cameras can a base station support?

Your Base Station can support up to 4 Roku Outdoor Cameras. If you are adding an Outdoor Camera SE to an existing Roku Outdoor Camera system, skip to the "Outdoor Camera set up" section. Select Add Outdoor Camera or tap the plus sign from the navigation bar, select Add device, select Cameras & doorbells, and choose Outdoor Camera.

How do I pair a Wyze camera with a base station?

In the Wyze app, tap Begin Setup. If you have more than one Wyze Base Station, or yours is already full, you'll be prompted to select the one you'd like to pair the camera with. Press the SYNC button on the bottom of the Wyze Cam Outdoor. The camera will say "Pairing is in progress. Please wait." The status light will flash yellow and blue.

Can I use Wyze base station on a Wi-Fi Connection?

Once it's set up, you can use Wyze Base Station on a Wi-Fi connection - no need for a router. To do this: In the Wyze app, tap on your Wyze Base Station. Tap on the Settings gear on the top right. Tap Device Info > Change Connection. You'll see one of the following screens: Select your network.

How do I connect my outdoor camera to my Network?

Your outdoor camera includes everything you need to get started including a base station, power adaptor, USB cable, Ethernet cable, and mounting

hardware. Simply download and install the free Roku Smart Home mobile app and use it to connect your base station and camera to your network.

Can I connect a GEN 2 camera to a base station?

The essential outdoor 2 gen camera wants to connect directly to wifi when setting up on the arlo app. That's fine. Can't be done, as the Gen 2 cameras don't support base stations yet. Arlo says the feature will be added, but they haven't said when. Note the caveat in your article in the "before you begin" section. See this article:
