

## SolarInvert Energy Solutions

# Is there any photovoltaic power station in Tunisia

## Overview

---

In Tataouine, in the governorate of Tunisia that goes by the same name, a photovoltaic power plant is in operation that can reach a maximum installed capacity of 10 MW to supply more than 20 GWh of energy per year to the national grid. What is a photovoltaic power plant in Tunisia?

In Tataouine, in the governorate of Tunisia that goes by the same name, a photovoltaic power plant is in operation that can reach a maximum installed capacity of 10 MW to supply more than 20 GWh of energy per year to the national grid. The plant is equipped with a solar tracking system that optimises the energy that is produced.

How much solar power does Tunisia have?

In Tunisia, the total solar PV total capacity at the end of 2014 was 15 MW which comprised of mostly small-scale private installations (residential as well as commercial) with capacity ranging from 1 kW and 30 kW.

Will TuNur use concentrated solar power in South West Tunisia?

TuNur plans to use Concentrated Solar Power to generate a potential 2.5GW of electricity on 100km<sup>2</sup> of desert in South West Tunisia by 2018. At present the project is at the fund-raising stage.

What is the productivity of photovoltaic systems in Tunisia?

Given these favourable conditions, the productivity of photovoltaic systems in Tunisia is very high. According to the International Renewable Energy Agency's (IRENA) Global Atlas, annual electricity production from PV systems ranges from 1,450 kWh per kilowatt peak (kWp) in the northwest to 1,830 kWh/kWp in the extreme southeast.

What is the Tunisian Solar Plan?

The Tunisian Solar Plan contains 40 projects aimed at promoting solar thermal and photovoltaic energies, wind energy, as well as energy efficiency

measures. The plan also incorporates the ELMED project; a 400KV submarine cable interconnecting Tunisia and Italy.

How is Tunisia accelerating its energy transition?

Tunisia is accelerating its energy transition by awarding 4 solar photovoltaic projects totaling 498 MW to reduce import dependency and promote renewable energy. Faced with growing energy dependency, Tunisia is taking a decisive step forward in its commitment to renewable energy.
