

SolarInvert Energy Solutions

Jordan High-Quality Energy Storage Battery Project

Overview

Is battery energy storage possible in Jordan?

In response to this, Fichtner in collaboration with the Jordanian Ministry of Energy and the transmission system operator, NEPCO, has analyzed the potential for battery energy storage and, in the role of Transaction Advisor, is providing support for implementing a pilot project.

Will Jordan build a \$40 million battery facility?

Jordan's government has reportedly agreed on proposals for a \$40 million battery facility to push forward the country's energy storage ambitions. The government has signed a memorandum of understanding with 23 international firms and consortia to build a battery storage facility with a capacity of "at least" 30MW, according to The Jordan Times.

How much electricity is generated by solar & wind power plants in Jordan?

Kharabsheh told the paper electricity generated by solar and wind power plants in Jordan as of the end of 2017 was around 500MW— a level he wants to increase to 2,700MW by 2021.

Will Al Badiya power generation install a 12mwh lithium-ion battery system?

BBB reported last year that an agreement had been signed to install a 12MWh lithium-ion battery system at Al Badiya Power Generation's solar power plant in Al-Mafraq, Jordan, as part of an expansion of the facility.
