Who is Solarity Jordan?

complete information about products. so that you don't miss any news!  
Solarity Jordan is a distributor and solutions provider of photovoltaic (PV) systems offering a complete assortment of solar modules and inverters.

Why did Jordan develop a small Solar Utility?

We developed Jordan's first most price-competitive small solar utility along with keeping market needed requirements . Since then, we lowered levelized cost of energy through value engineering, operational research and efficient financial strategy to deliver cost-efficient energy for our customers.

How do solar panels produce electricity?

The renewable solar panels produce electricity by transforming the continuous flow of energy from the sun to electricity. They are CO<sub>2</sub>-free. No harmful emissions are released into the air when electricity is produced by solar panels. Additionally, the photovoltaic process has low operating costs.
