

SolarInvert Energy Solutions

Offshore base station energy communication brand

Overview

Who is offshore communications as?

A worldwide leader in providing services for maritime offshore communications technology. Offshore Communications AS sells and services most communication products used in the energy, maritime and telecommunications industries. We can enhance your at-sea connectivity regardless of your installation or vessel, including:.

What can offshore communications do for You?

Offshore Communications AS sells and services most communication products used in the energy, maritime and telecommunications industries. We can enhance your at-sea connectivity regardless of your installation or vessel, including: Satellite internet and Entertainment systems providing TV for private yachts.

Do offshore facilities need a communication system?

A rock solid and reliable communication system is an absolute necessity on every offshore facility and this also applies to the numerous new offshore facilities in the North Sea and around the world.

Offshore base station energy communication brand

QatarEnergy LNG

QatarEnergy LNG offshore operations are located approximately 80 kilometres northeast of Qatar's mainland. A total of 208 wells supply approximately 18.5 billion standard cubic feet per ...
