Outdoor Power Gel Battery

Overview

What is a gel battery?

Our gel batteries, classified as a type of valve-regulated lead-acid (VRLA) batteries, incorporate a gel electrolyte to immobilize sulfuric acid, enhancing safety significantly. This design ensures spill-proof characteristics, making our gel batteries a reliable choice for a wide range of applications.

What is a deep cycle gel battery?

Reliable Deep Cycle Gel Batteries for Long-Lasting Power! Our gel batteries, classified as a type of valve-regulated lead-acid (VRLA) batteries, incorporate a gel electrolyte to immobilize sulfuric acid, enhancing safety significantly.

Can gel batteries be used for electric and hybrid vehicles?

1. Electric and hybrid vehicles, gel batteries can be used as energy storage devices for electric and hybrid vehicles, featuring high density, long service life and high safety, which can provide reliable power output and quick recovery of battery power during charging and discharging. 2.

Are gel batteries safe?

Safe and reliable, gel batteries using non-liquid electrolyte is not easy to electrolyte leakage, explosion, and overcharge, over discharge hidden danger, so that in some special occasions have a high degree of safety and reliability. 4. Gel battery lifespan.

How long do gel batteries last?

The design life of gel batteries varies under different conditions, for example, the design life of 12V series gel batteries is 6 to 8 years, while the design life of 2V series is 10 to 15 years.

Are gel batteries better than AGM batteries?

Gel batteries have a thick electrolyte and are less vibration resistant than AGM batteries. AGM batteries are of higher quality and are able to achieve optimum capacity at all temperatures, AGM batteries are well suited for all high amperage needs and have a very low self-discharge rate.

Outdoor Power Gel Battery

Gel Series

Gel 12V Series Voltage class: 12V
Capacity range: 33Ah~250Ah DG (Deep Cycle GEL) series is pure GEL battery with 15~20 years floating design life, it is ideal ...
