Power Generation Container Patent

Power Generation Container Patent

US20110316337A1

A modular data center is collocated with a primary electric generating station and receives its operating power from connections upstream of any step-up transformer for transmission lines ...

[Get Price](#)

CONTAINER-TYPE COMPRESSED AIR STORAGE POWER GENERATION DEVICE

The ACAES power generation device recovers and stores compressed air to prevent compression heat from being released during storage of the compressed air, and the ...

[Get Price](#)

JPWO2014103059A1

An object of the present invention is to use a long power generation container in which a power generation function part is stored as a basic container structure (mono-generation container), ...

[Get Price](#)

Power generation container with

additional improvements

The present invention relates generally to mobile containers for housing power generation machinery or stations, and more particularly, to semi-tractor trailer containers incorporating

[Get Price](#)

US-10637250-B2

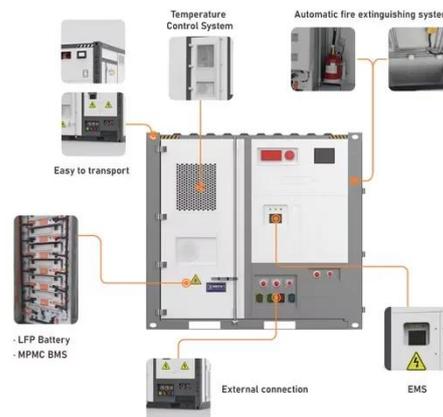

Systems, methods, and building block modules for modular power generation facilities are disclosed. A modular power generation facility includes a plurality of primary modules and a ...

[Get Price](#)

NATURAL GAS HYDRATE TANK CONTAINER LOADING ...

[0002] In addition, the present disclosure relates to a natural gas hydrate tank container loading system which enables self-powered power generation and boil-off gas ...

[Get Price](#)

CN104868825A

The invention discloses a solar container system which comprises a highly-efficient photovoltaic assembly, a storage battery, a solar hot-water supply and power generation system, an ...

[Get Price](#)

JP2016065535A

PROBLEM TO BE SOLVED: To provide a container type compressed air storage power generation device that facilitates transportation and field construction.SOLUTION: A container ...

[Get Price](#)

KR20110129510A

The present invention relates to an exhaust device for a container built-in power generation facility, and an object thereof is to provide an exhaust device for a container built power ...

[Get Price](#)

POWER GENERATION CONTAINER IMPROVEMENTS

This patent application claims priority and benefit of U.S. provisional patent application having application No. 61/822,911, filed on May 13, 2013, and

entitled "Power Generation Container ...

[Get Price](#)

Applications

Vertical gravity/buoyancy power generator

The power generator includes methods for a plurality of weighted uniquely configured variable density containers which ascend and descend in a primarily vertical plane and which drive one ...

[Get Price](#)

US Patent 10340696 Modular power generation facilities using

Patent 10340696 was granted and assigned to Powersecure, Inc. on July, 2019 by the United States Patent and Trademark Office.

[Get Price](#)

Wireless Power Transfer , NTU-EEE-SPCL

We currently have a variety of spatial wireless charging container designs based on inductive-resonant wireless power transfer technologies. Our designs

have undergone several iterations ...

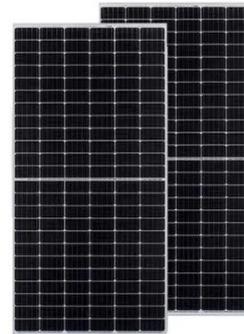

[Get Price](#)

US11108354B2

To provide both shelter and power, standard intermodal containers equipped with solar panel systems have been utilized. WIPO International Publication No. WO 2015/164913 A1, Pyne, ...

[Get Price](#)

WO-2016047630-A1

The container (4) houses the compressors (5a-5c) and the power generators (9a-9c), and the tank (8) is disposed outside the container (4). Therefore, the container-type compressed air storage ...

[Get Price](#)

CN115492675A

The invention discloses a diesel generating container system with high-efficiency heat dissipation, which comprises a box body, wherein the top of the box body is connected with a box

cover, a ...

[Get Price](#)

US Patent 10340696 Modular power generation facilities using

Systems, methods, and building block modules for modular power generation facilities are disclosed. A method of erecting a modular power generation facility includes producing a ...

[Get Price](#)

Containerized power generation

Container ships, barges, trains, truck and terminals have very little space for solar panels or clean energy storage, so the disclosed embodiments provide a solution that combines the energy ...

[Get Price](#)

U.S. Patent for Container for a generator set Patent (Patent

Referring to the figures generally, the various embodiments disclosed herein relate to systems, apparatuses, and methods for a generator set contained

within an International ...

[Get Price](#)

Containerized, stackable all-in-one generator sets provide turn ...

As the demand for critical emergency and prime power continues to grow, so does the need for innovative, expedient, turn-key solutions. That is why earlier this month, Cummins ...

[Get Price](#)

(19) United States (12) Patent Application Publication (10) ...

The present invention relates generally to mobile containers for housing power generation machinery or stations, and more particularly, to semi-tractor trailer containers incorporating ...

[Get Price](#)

WO2011099668A1

The present invention relates to a containerized power plant, and particularly, to a containerized power plant consisting of a plurality of containerized power generation units

and a main control ...

[Get Price](#)

CONTAINER-TYPE COMPRESSED AIR STORAGE POWER ...

The ACAES power generation device recovers and stores compressed air to prevent compression heat from being released during storage of the compressed air, and the ...

[Get Price](#)

US20180109112A1

Systems, methods, and building block modules for modular power generation facilities are disclosed. A method of erecting a modular power generation facility includes producing a ...

[Get Price](#)

Lithium Solar Generator: S150
