

## SolarInvert Energy Solutions

# Purchase solar power system

## Overview

---

Why should you buy a solar system?

Generate your own clean energy from the sun for free with solar. Add Powerwall to store your energy for use anytime you need it. Tax incentives and flexible financing options ensure you get the best price for your solar system. Power your home with emissions-free, renewable energy directly from the sun.

Can you buy solar panels from a wholesale reseller?

Wholesale resellers sell equipment online to consumers looking to go solar. While labeled as “wholesale,” these items will still typically include a markup so that the company selling the product will make a profit. It’s currently not possible for consumers to purchase wholesale solar panels directly from panel manufacturers.

What are the different types of solar power kits?

Choose from a variety of solar power kits to accommodate your installation needs. Our grid-tied kits include solar panels, inverters and a racking system. The off-grid solar power kits include batteries, solar panels, a power center and your racking system.

Why do you need a solar power system?

A solar power system ensures you are equipped in the event of an outage from a natural disaster, whether you choose to ground mount or install your solar panel kits on the roof of your home. Regardless of the choice you make, you will no longer rely on the city or town grid solar system and reduce or totally eliminate your monthly electric bill.

Are solar panels a good option for small homes?

Solar panels are also virtually maintenance free, meaning less worry about keeping them running year-round! The smallest solar power systems, sized for

the smallest houses. These kits include battery storage since tiny homes are typically used in remote areas, and in some cases even built on trailers for mobility.
