Samoa Solar Panel Greenhouse

Overview

Does Samoa have a solar grid?

Samoa's first grid connected solar. Samoa, the first country to access the Pacific Environment Community (PEC) Fund since its inception in 2010 is finally having their first solar photovoltaic grid system commissioned for use in Salelologa, Savai'i.

Who installed solar street lights in Samoa?

Installation of Solar Lights The Impress Project through the Renewable Energy Division distributed and installed solar street lights for selected community groups and schools. Samoa's first NDC focuses primarily on reducing emissions from the energy Sector.

How long will Samoa's solar project last?

The project expected to last more than 20 years is spread out over three sites in the country's main islands, Upolu and Savai'i. "Today, we are opening Samoa's first solar system, without storage, that can be connected to the grid, to run in parallel with other energy sources like diesel generators.
