

SolarInvert Energy Solutions

Solar charging in Tajikistan

Overview

Does Tajikistan need solar power?

The government is actively seeking support for development of solar power, noting that the country has an average of 300 sunny days per year, with mountain terrain unsuitable for farming allowing space for solar farms. Tajikistan is encouraging the use of electric vehicles, particularly in Dushanbe.

Is solar energy a good investment in Tajikistan?

In Tajikistan, there are no favourable conditions for the widespread use of solar energy or for attracting investment in this sector. This is happening amid constant energy shortages and a crisis in the country's electric power system. Solar panels in Dushanbe. Photo: CABAR.asia Tajikistan is one of the most vulnerable to climate change countries.

What is the largest solar power plant in Tajikistan?

Dushanbe, Tajikistan, November 12, 2020 - The U.S. Agency for International Development (USAID) representatives participated in an inaugural ceremony for the new 220-kilowatt Murghob solar power plant, which will be the largest solar power plant in Tajikistan and the highest solar power plant, by elevation, in the world.

Does Tajikistan have electric power?

This is becoming an acute problem for the country's hydropower system, which produces more than 95% of the country's electric power. In 2023, more than 21.8 billion kWh of electric power was produced in Tajikistan. However, during many years in winter, rural residents of the country have access to electric power only 8-10 hours per day.

Will Tajikistan have a solar power plant in 2023?

During a press conference of the Ministry of Energy and Water Resources of

Tajikistan on February 1, 2024, it was mentioned that in 2023, a USAID-funded solar power plant with a capacity of 600 kW was put into operation in Murghab district.

Should Tajikistan use alternative methods of generating electricity?

The experts believe the country has to use alternative methods of generating electric power more actively so that residents have constant access to it. According to meteorological services, Tajikistan has between 260 and 300 sunny days a year and enormous solar energy potential.
