

## SolarInvert Energy Solutions

# Well-known manufacturer of photovoltaic AC combiner boxes

## Overview

---

What is a PV AC combiner box?

The new PV AC Combiner boxes have been designed for PV systems with string inverters in trackers or fix tilt systems. The product portfolio is suitable for inverters from 60 kW up to 200 kW and support voltages of 400 V, 690 V or 800 V AC. The combiner boxes allow to collect from 2 up to 6 string inverters in one single cabinet.

What is a UL approved PV combiner box?

Rand PV specializes in UL approved PV combiner boxes. Combiner boxes save labor and material costs through wire reductions while enhancing overcurrent and overvoltage protection and increasing reliability.

Who is letop solar combiner box manufacturer?

We are LETOP, a professional Solar Combiner Box manufacturer. We have been deeply involved in the industry for 15+ years. With excellent R&D strength and advanced production technology, we provide high-quality and high-performance photovoltaic combiner box & related components to global customers.

What types of solar combiner boxes are available?

We offer a variety of solar combiner boxes, including DC and AC. DC combiner boxes cover 1-24 input channels, support 600V/1000V/1500V system voltage, and current range 10A-400A. AC combiner boxes support low-voltage and medium-voltage applications.

What is an AC combination box?

The AC Combiner Box is a solution designed with an integrated AC MCCB for AC input and output, and it includes Type 2 AC SPD for overvoltage protection on inverters. Customizable solutions are offered to meet the specific needs of different projects.

How many string inverters can a combiner box collect?

The combiner boxes allow to collect from 2 up to 6 string inverters in one single cabinet. They withstand ambient temperatures from  $-20$  up to  $+50^{\circ}\text{C}$  to operate in hardest climate conditions, fulfilling the highest market standards as per IEC 61439-2 ed 3.0:2020. Fast delivery time of maximum 4 weeks
