# What mobile base station sites are there in Sofia

## Overview

---

How many Sofia Metro stations are there?

Click on the map to enlarge it or download the Sofia Metro map in PDF format. The Sofia Metro is an essential mass transit system in the Bulgarian capital. It currently consists of 35 stations spread over 40 kilometres (24.9 miles) and operates two lines with considerable overlap. An additional line is under development.

Does Sofia Airport have a metro station?

The airport was originally established in 1930. Since 2015, Sofia Airport has been seamlessly connected to the city via the Sofia Metro, with the inauguration of the Sofia Airport terminal station on Line 2. Thus, passengers can easily commute from the airport to the metro by boarding at this station, which is directly connected to Terminal 2.

What is the Sofia Metro?

The Sofia Metro is an essential mass transit system in the Bulgarian capital. It currently consists of 35 stations spread over 40 kilometres (24.9 miles) and operates two lines with considerable overlap. An additional line is under development. Sofia Metro uses rolling stock from three different generations.

How many tram lines are there in Sofia?

Despite their historical roots, Sofia's trams are modern and the network is extensive, covering 308 kilometres (191 miles) with 14 operating lines. Tram lines often connect with metro stations. For example, tram line 1 connects to Knyaginya Maria Luiza metro station, while lines 3, 11 and 22 pass through Konstantin Velichkov station.

How does the Sofia Metro work?

The Sofia Metro serves a large number of daily commuters, reducing traffic congestion and contributing to the overall efficiency of Sofia's transport

infrastructure. Reflecting Bulgaria's multilingual context, metro stations provide signage in both Bulgarian and English, increasing accessibility for locals and tourists.

What transport system does Sofia have?

The Sofia Public Transport Company, regulated by the Sofia Urban Mobility Centre, manages the metro along with three other transport networks that serve the surface of the city: bus, trolleybus and tram. The bus network, with 98 different lines, is the most extensive, reaching every corner of the city.
